Bring effortless comfort
to every day.

Hybrid 6.5mm- Essential Series

THE EVERYDAY CHOICE

Balanced construction
Generous wide planks
Refined woodgrain

6.5mm
balanced structure

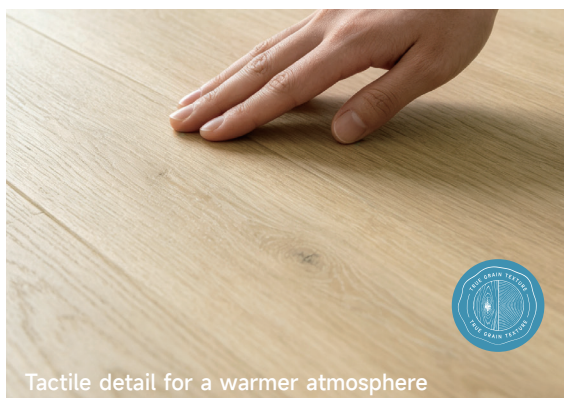

230mm
wide planks

EIR
woodgrain texture

THE EVERYDAY CHOICE WITHOUT COMPROMISE

Part of the LAVITTO Hybrid collection, ESSENTIAL is made for everyday living. Lightweight and easy to install, it combines everyday wear resistance, acoustic comfort and beautiful woodgrain to make every step and every glance feel right.

Tactile detail for a warmer atmosphere

Texture in Touch

EIR woodgrain texture

Embossing in register aligns the texture beneath your fingers with the woodgrain you see, going beyond a simply printed pattern. The matt finish reduces harsh reflections, softening both daylight and artificial light. Micro Bevel edges gently define the plank edges, adding depth to the installed floor.

Appearance

230mm wide planks

Plank width shapes the sense of space. Measuring 230 mm wide and 1520mm long, these planks create fewer joints and continuous lines, making rooms feel more open and connected.

Let the eye flow naturally

More flexibility for renovations

Underfoot feel

6.5mm balanced construction

A 5.5mm Rigid Core and 1mm acoustic underlay soften each step and reduce echoes. The slim profile gives renovations more flexibility without extensive work. Thresholds and doors usually need no alteration, and transitions to cabinetry and sliding doors are easier to manage, making whole-home updates or partial renovations simpler.

01

1mm acoustic underlay for quieter footsteps

The attached 1mm acoustic underlay absorbs the impact sound of footsteps. When heading out early, there is no need to worry about heels waking sleeping family members. When you get up for water at night, bare feet meet a softer, steadier surface without that hard, hollow sound.

02

Quick-fit locking for easier installation

The Unilin locking system ensures a secure fit and easy installation. Individual planks can be replaced if damaged, making maintenance simpler.

03

A 0.5mm wear layer for everyday friction

Children running, pets passing through, chairs moving and friends visiting-life should not require constant caution. A 0.5 mm wear layer and Rigid Core keep everyday friction, water marks and stains at the surface, where a damp cloth wipes them away without repeated scrubbing.

QUIET COMFORT AND DURABILITY

The visible layer delivers beauty; the hidden layer provides peace of mind. With both working together, you can enjoy everyday life without tiptoeing around it.

TIPS:

- **A slightly damp mop is enough**

For daily cleaning, use a well-wrung, slightly damp mop. Strong solvent cleaners are unnecessary.

- **Wipe up standing water promptly**

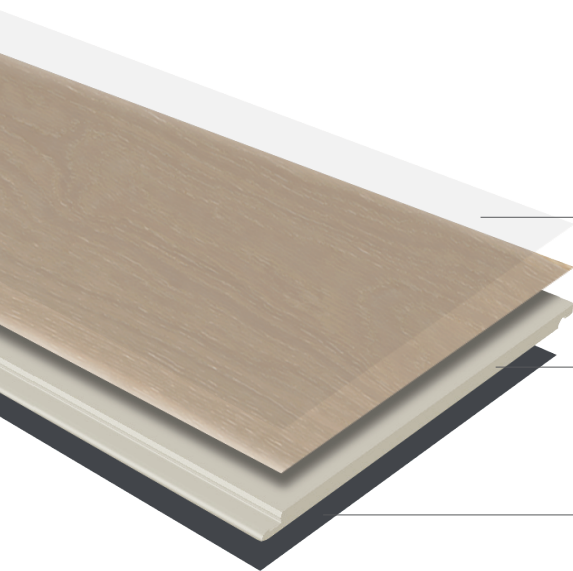

Simply wipe away spills, but do not leave the floor soaking in water for long periods.

- **Place a mat at the entrance**

Place a mat at the entrance to keep grit out and help reduce wear.

EVERY LAYER IS JUST RIGHT

The 6.5mm construction is not simply about using less: it balances wear resistance, stability and acoustic comfort in the right proportions.

Surface: matt/embossed in register (EIR)

- **Wear layer: 0.5mm**

A tough surface layer, included in the 5.5 mm Rigid Core thickness, with a matt finish for soft reflections.

- **Rigid Core: 5.5mm**

The Rigid Core provides dimensional stability, moisture resistance and support underfoot.

- **Acoustic underlay: 1mm**

Attached to the back of the plank, it absorbs impact noise from footsteps and helps accommodate slight unevenness in the floor.

Quick-fit locking system

The four-sided locking system provides tight, secure joints and easy installation. Individual planks can be replaced if damaged, making maintenance simpler.

LAY THE FOUNDATIONS FOR THE LIFE YOU LOVE

► Living room

Let the eye flow naturally

Trial-lay the planks along the main sightline, pairing them with uncluttered walls and light-looking furniture to let the generous width blend naturally into the room.

► Bedroom

A soft backdrop for the morning

Echo the matt woodgrain with cotton and linen, warm whites and pale timber tones to keep the bedroom simple and soothing.

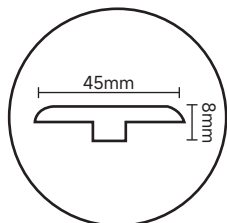

► Dining area

Bring order to everyday life

Continuous woodgrain helps unify the look of an open-plan space. Protective pads on dining chairs also make care easier.

COLOUR-MATCHED ACCESSORIES COMPLETE EVERY TRANSITION

Doorways, wall edges and stair landings-it is often these finishing details that determine how complete a floor looks.

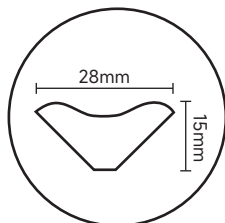

T-Mould

Transitions at doorways and between floors of the same height

2400×45×8mm

20 lengths per pack/Solid core

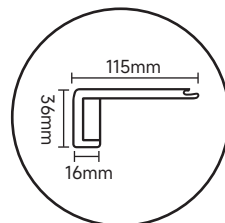

Scotia

Finishing along walls and existing skirting boards

2400×28×15mm

25 lengths per pack/Solid core

Square-edge stair nosing

Finishing the leading edge of stair treads

1500×115×36mm

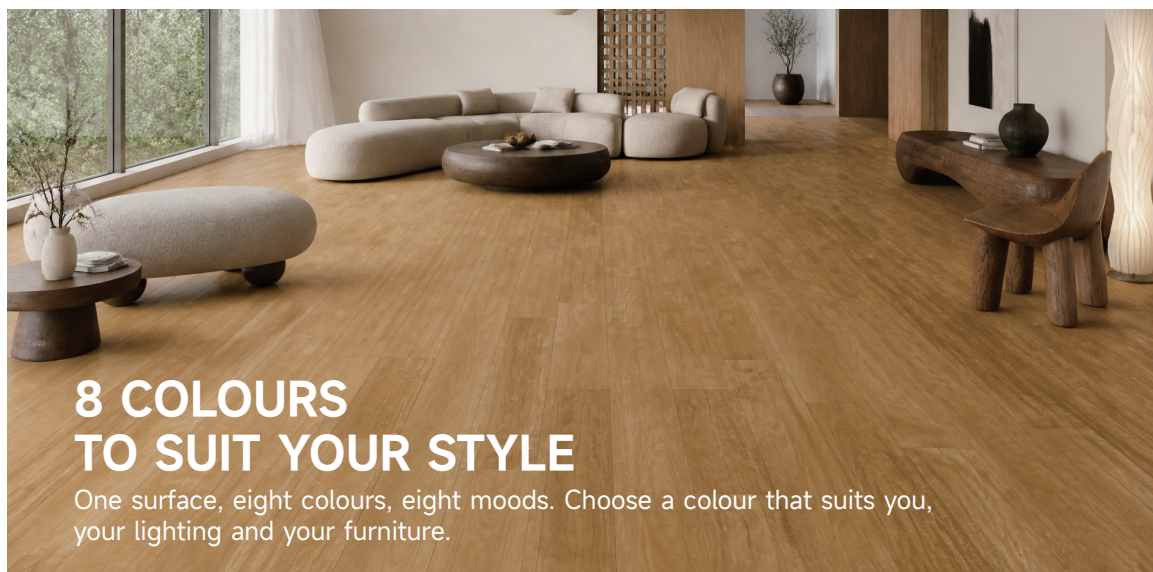

6 lengths per pack/Solid core

Why choose colour-matched accessories?

Accessories are colour-matched to the flooring in the same batch, keeping colour differences at the edges negligible and giving the whole home a consistent, complete finish.

Each of the three ranges has corresponding colour-matched accessories. Dimensions refer to the external profile. Confirm colours, compatibility and installation methods against the physical products and project requirements.

8 COLOURS TO SUIT YOUR STYLE

One surface, eight colours, eight moods. Choose a colour that suits you, your lighting and your furniture.

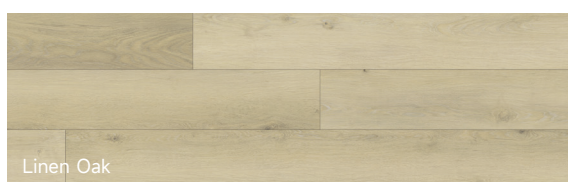

Silver Mist Oak

Taupe Drift Oak

Frost Oak

Linen Oak

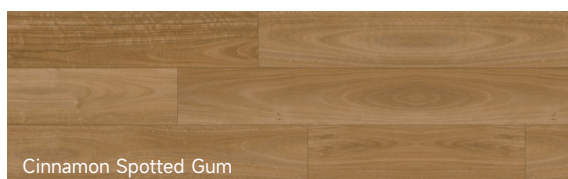

Natural Dune Oak

Pearl Oak

Amber Blackbutt

Cinnamon Spotted Gum

Not sure which to choose? Keep these three tips in mind

1 For smaller rooms or limited natural light

Choose lighter tones such as Linen Oak or Oat to make the space feel brighter and more open.

2 When furniture already has many colours

Neutral shades are the safest choice. Silver Mist Oak and Natural Dune Oak comfortably with almost any colour scheme.

3 For a more grounded feel

Taupe Drift Oak and Amber Blackbutt tones give larger spaces a sense of substance and calm.

Colours may vary with lighting and screen settings. Please refer to physical samples.

SPECIFICATIONS

Item	Value	Standard / Notes
Range	ESSENTIAL	Hybrid flooring
Total thickness	6.5mm	Standard residential / commercial use
Rigid Core	5.5mm	Rigid Core
Acoustic underlay	1mm (attached)	Sound absorption and noise reduction
Plank dimensions	1520×230mm	Length×width
Wear layer	0.5mm	Standard residential / commercial use
Surface	EIR	Matt / embossed in register
Bevel	Micro Bevel	—
Locking system	Unilin	Quick-fit locking
Pack	6 planks / 2.10sqm	Per pack
Available colours	8	ESSENTIAL collection
Installation method	floating	Requires moisture-resistant underlay+moisture barrier film

Important installation and care advice

1 Before installation

The subfloor must be flat, dry and clean. Leave 8–10mm expansion gaps around the perimeter. Transition strips are recommended for runs longer than 8m.

2 Daily cleaning

Use a slightly damp mop and avoid prolonged standing water. Repeated surface treatment with strongly acidic, strongly alkaline or wax-based products is not recommended.

3 Everyday care

Fit soft pads to furniture feet and lift furniture when moving it. Place a dust-trapping mat at the entrance. Promptly attend to any sharp or heavy objects that fall onto the floor.

EVERYDAY EASE STARTS UNDERFOOT

ESSENTIAL
The Everyday Choice

The LAVITTO Hybrid collection offers three choices: ESSENTIAL, PIONEER and PINNACLE. ESSENTIAL is designed for everyday living: slim, wide and easy to care for. If you prefer a more substantial feel underfoot or the refined texture of a flagship range, consider the other two ranges.
